

The Total Solution

Providing Solutions for the electrical metering apparatus market through innovated technology, technical, software and customer support.

Why Choose Us

Deep Industry Experience

For 36 years, National Meter Industries, Inc. (NMI) has provided sub-metering, PQM metering, demand control, and metering/billing solutions.

Support & Products

The Company provides the finest most efficient, diversified and highest quality metering equipment and solutions available in the market.

Advanced Technology

NMI has committed itself to follow the latest technological advances in order to offer the latest and most accurate solution in the sub-metering and Demand control market.

Rapid Value Creation

We are dedicated to innovative solutions for a better future, partnering with CIRCUTOR to provide globally recognized, comprehensive metering solutions.

Our Products & Services

Products

- Sub-Meters, Power Quality Meters, Power Quality Analyzers
- Current Transformers
- Digital Instrumentation & Transducers
- A Full Line of Analog 90° Instruments
- Din Rail Metering Systems
- Earth Leakage Current Protection Relays, Type A & B
- Power Factor Regulators
- Power Factor Capacitors
- Capacitor Banks
- And More...

Engineering & Design

- NMI assists engineers and contractors cut costs while enhancing reliability and profitability.
- Design-Build Solutions, Detailed Quotes, Meter Enclosures, Submittal Packages, Unlimited Support
